The labor force in America is the basic factor for our country's steady progress. Without labor, there would be no industry, no business, nor any of the economic growth which we too often take for granted.

On Labor Day, September 3rd, join us in saluting the labor force in our community which has made possible the industrial and economic success of the Tri-City area.

Aspect Of Oct. 2 Drainage Election

pect Of Oct. 2 Drainage Election

The Tri-City Medical Society's endorsement of the Oct. 2 drainage-pollution abatement election in Granite City is of particular interest. We can think of no other group which could give such expert commentary on one of the major issues in the election—public health.

Local doctors' statement that "the health of the community is at stake" is worthy of full attention by all who live in Granite City.

The plain fact is that in all parts of the city, the present inadequate system results in raw sewage entering streets, yards and basements when there is a downpour of rain. This is true even in Nameoki, where there are separate sanitary and storm lines; the Nameoki sanitary sewers lead to Granite City's obsolete one-pipe system.

the Namcoki santiury sewers lead to Granite City's obsolete one-pipe system.

Basement floors covered with rotting sewage co-children playing amidet disease-laden effluent the odor of overflow standing on lawns, along curbs and in ditches. These are conditions that should not and need not continue. The health menace and the back-up nuisance can be ended for all time with a "Yes" vote in the election Oct. 2.

Taking into account the relationship between raw sewage and such illnesses as typhoid, policy dysentery, malaria and encephaltis, Granite City physicians will be among those casting "Yes" ballots. Citizens can improve the health prospects of themselves and their families by doing the same.

Young eyes need good light to help them with their homework.
We have chosen three handsome study lights and drastically
reduced the price for this special sale. Each lamp is a scientifically
designed "better light—better sight" study lamp with a metal
reflector and glass diffuser bowl to eliminate eyestrain and fatigue.
Ample, glare-free light, with higher light-levels than ever
before. Ideal for homework and study.

Be sure you see these study lights at our office before school starts.
